Operation Pathways, an affiliate of The NHP Foundation, has over twenty years of experience providing housing-based services for low to moderate income families and seniors. Our programs and services engage residents in innovative and interactive ways and allow them to choose their own pathway to increased financial stability, academic achievement, and health.

In 2016, our **24** housing-based community centers impacted the lives of over **7,000** individuals with over **11,000** hours of programs and services.

Pathway to Healthier Living

Mission

Operation Pathways provides and coordinates place-based programs and services for residents in affordable housing communities to increase quality of life.

Vision

Vibrant housing communities where residents are engaged, empowered, and supported to live to their fullest potential.

Pathway to Financial Stability

promotes financial management skills and tools to increase financial independence and security. Programing focuses on financial practices to increase income, decrease expenses, and build assets. The program also includes workforce development components to help build skills and secure higher paying employment opportunities.

Pathway to Academic Achievement

promotes academic success and lifelong learning as a means to break the cycle of poverty. Programing focuses on the educational needs of residents, with afterschool and summer programs for youth ages 6-14 as the core. Adult education offerings often integrate with the workforce development program and includes GED prep, ESL, and computer skill courses.

Pathway to Healthier Living

promotes active and healthy lifestyle choices that lead to improved physical, psychological, and emotional well-being for individuals and communities. Programing focuses on several essential areas of health and wellness; including physical fitness, emotional well-being, access to healthcare, and lifestyle and diet choices.

Service Coordination

is the heart of Operation Pathways' resident services work. This one-on-one support creates an open environment for residents to express their needs and for staff to identify local solutions and resources. Each program site provides services, activities, and referrals that assist and enable individuals and families to take advantage of opportunities in their communities.
